goldfish, goldfish

*(Nomen)*

*Definition:* a type of fish, typically orange-coloured

*Übersetzung:* Goldfisch

*Beispiel:* Each child will win a goldfish as a prize.

mouse, mice  [maʊs]

*(Nomen)*
Definition: a small mammal belonging to the order of rodents, eaten by large birds such as hawks and eagles, known to invade homes for food and occasionally shelter

Übersetzung: Maus

Beispiel: Pet mice can be playful, loving and can grow used to being handled.

rat, rats  [ræt]
(Nomen)

Definition: various medium-sized, long-tailed rodents, distinguished from mice by their size

Übersetzung: Ratte

Beispiel: In some developed countries, many people keep domesticated rats as pets.

hamster, hamsters  ['hæmstə]
(Nomen)

Definition: a small, short-tailed European rodent, remarkable for having a pouch on each side of the jaw, under the skin, and for its migrations

Übersetzung: Hamster

Beispiel: It is the cutest sight to see a hamster stuff his puffy cheeks with food; where is he going to store it?

guinea pig, guinea pigs  ['gɪnə pɪɡ]
(Nomen)
Definition: a tail-less rodent with short ears and larger than a hamster

Übersetzung: Meerschweinchen

Beispiel: Instead of a hamster the girl wants to have a guinea pig.

Synonym(e): cavy

rabbit, rabbits [ˈræbɪt] (Nomen)

Definition: several small mammals of the family Leporidae, with long ears, long hind legs and a short, fluffy tail

Übersetzung: Hase

Beispiel: The pioneers survived by eating the small game they could get; rabbits, squirrels and occasionally a raccoon.

Synonym(e): bunny
