**plant, plants**  
(Nomen)  
*Definition:* an organism that is not an animal, especially an organism capable of photosynthesis, typically a small or herbaceous organism of this kind, rather than a tree  
*Übersetzung:* Pflanze  
*Beispiel:* The garden had a couple of trees, and a cluster of colourful plants around the border.

**garden, gardens**  
(Nomen)  
*Definition:* an outdoor area containing one or more types of plants, usually plants grown for food (vegetable garden) or ornamental purposes (flower garden)  
*Übersetzung:* Garten  
*Beispiel:* Let's plant a tree in the garden!  
*Synonym(e):* yard (AE)

**seed, seeds**  
(Nomen)  
*Definition:* a fertilized grain, initially encased in a fruit, which may grow into a mature plant  
*Übersetzung:* Saatkorn  
*Beispiel:* If you plant seed in spring, you may have a pleasant surprise in autumn.

**sow, sowed, sown**  
*Definition:*
(Unregelmäßiges Verb)

Definition: to scatter, disperse or plant (seeds)

Übersetzung: säen

Beispiel: I needed to sow the field, so I sowed the field and when I had sown the field, I was happy.

grass, grasses  [ɡrɑːs]

(Nomen)

Definition: any plant of the family Poaceae, characterised by leaves that arise from nodes in the stem, wrap around it for a distance, and leave, especially those grown as ground cover rather than for grain

Übersetzung: Gras

Beispiel: You need to cut the grass next week.

lawn, lawns  [lɔːn]

(Nomen)

Definition: ground (generally in front of or around a house) covered with grass kept closely mown

Übersetzung: Rasen

Beispiel: I love to walk barefoot across the lawn.

soil  [sɔɪl]

(Unzählbares Nomen)

Definition: a mixture of sand and organic material used to support plant growth; the unconsolidated mineral or organic material on the immediate surface of the earth that serves as a
natural medium for the growth of land plants

Übersetzung: Erde

Beispiel: Soil formation greatly depends on the climate.

Synonym(e): dirt, earth

**meadow, meadows**  [ˈmɛdəʊ]

(Nomen)

Definition: a piece of land covered or cultivated with grass, usually intended to be cut for hay

Übersetzung: Wiese

Beispiel: The farmer owned several meadows right next to his farm.

**hedge, hedges**  [hedʒ]

(Nomen)

Definition: a thicket of bushes, usually thorn bushes, especially such a thicket planted as a fence between any two portions of land

Übersetzung: Hecke

Beispiel: He trims the hedge once a week.

**bush, bushes**  [bʌʃ]

(Nomen)

Definition: a horticultural rather than strictly botanical category of woody plant that is distinguished from a tree by its multiple stems and lower height, usually less than 6m tall
Übersetzung: Busch

Beispiel: Let's plant some bushes around the house.

**weeds**, [wi:d] (Nomen)

Definition: any plant growing in cultivated ground to the injury of the crop or desired vegetation, or to the disfigurement of the place; an unsightly, useless, or injurious plant

Übersetzung: Unkraut

Beispiel: If it isn't in a straight line or marked with a label, it's a weed.

**park**, [pɑrk] (Nomen)

Definition: a tract of ground kept in its natural state, about or adjacent to a residence, as for the preservation of game, for walking, riding, or the like

Übersetzung: Park

Beispiel: The biggest park in NYC is Central Park.

Synonym(e): grounds

**forest**, [ˈfɔræst] (Nomen)

Definition: a dense collection of trees covering a relatively large area, larger than woods

Übersetzung: Wald
Beispiel: They saw several squirrels while they were walking through the forest.

**herb, herbs**  
(Nomen)  
**Definition:** any green, leafy plant, or parts thereof, used to flavour or season food  

Übersetzung: Kraut  

Beispiel: Can you quickly go and get some herbs for our dinner tonight?

**fern, ferns**  
(Nomen)  
**Definition:** any of a group of some twenty thousand species of vascular plants that lacks seeds and reproduces by shedding spores to initiate an alternation of generations  

Übersetzung: Farnkraut  

Beispiel: I thought we could plant some ferns in the garden.

**mushroom, mushrooms**  
(Nomen)  
**Definition:** any of the fleshy fruiting bodies of fungi typically produced above ground on soil or on their food sources (such as decaying wood)  

Übersetzung: Pilz  

Beispiel: Some mushrooms are edible and taste good, while others are poisonous and taste foul.
**toadstool**, toadstools  [ˈtɔːdstoʊl]  
(Nomen)

*Definition:* any inedible or poisonous mushroom, especially an agaric  

*Übersetzung:* Giftpilz  

*Beispiel:* Be careful not to collect any toadstools.

**vine**, vines  [vain]  
(Nomen)

*Definition:* a climbing plant that produces grapes  

*Übersetzung:* Weinrebe  

*Beispiel:* Poison ivy and Bittersweet can grow as low shrubs when support is not available, but will shoot vine when support is available.

*Synonym(e):* grapevine
